

Assignment 2 Overview

- For Assignment 2, you will map the COVID-19 vaccination uptakes in Alberta.
- Create four maps in **JPEG** format using your own layout files.
- Complete multiple-choice questions and provide short written answers.
- Assignment 2 is available on **Connect**.
- All submissions should be done on Connect (e.g., there are upload buttons for each map)
 - No need to create a PDF for submission this time.

Assignment 1 Marking

- I will be responsible for marking your assignments.
- Only the **latest** submission will be marked.
 - No need to notify me about multiple submissions.
- A brief explanation will be provided for each mark deducted.
- Marks will be released after the professor's review.
- If you submit a **couple of minutes** late, there will be no late penalty.

Policy Reminder

- All extension requests should be directed to the professor.
 - Please do **not** ask me for an extension.
- Late assignments are penalized at a rate of 20% for the first day and 10% for each subsequent day they are overdue, including weekends.
- Late assignments will only be graded if submitted **no later than three days** after the original deadline.
 - A grade of **zero** will be assigned after this period.
- If you submit an assignment late, you **must** notify me that it has been submitted.

Assignment 1 Grade Appeal

- If you have concerns about your mark, feel free to **email** me (yinz39@mcmaster.ca) to discuss.
 - Use the email subject: *ENVSOCY 2G13 Assignment 1 Appeal*
- Partial marks will be awarded where applicable.
- I strive for consistency in grading, especially for written answers.
- Unless there is an error in my mark deduction (e.g., deducting a mark for a missing legend when your map includes one), it is unlikely that marks will be adjusted.
